NOTE: THE STYLE OF YOUR CRIB OR OF YOUR MATTRESS SUPPORT MAY VARY FROM WHAT IS PICTURED IN THE INSTRUCTION SHEET

Please locate and confirm that you have the following parts:

TR. toddler rail = 1

one bag of hardware containing:

1. Allen wrench = 1

Required tools: Allen wrench (supplied)

CAUTION: Do not use a power screwdriver which can cause screws to break or strip.

STEP A (two adults are required to complete this step - please refer to “ASSEMBLY INSTRUCTIONS FOR YOUR 10501 STATIONARY CRIB”)

Remove the mattress support (**MS**) of your crib.

Carefully rotate the crib and place it with the headboard on the floor, taking care not to scratch the wood finish.

Remove the decorative legs (**DL**) and the footboard (**FB**). Keep the resulted hardware for the next steps.

Adjust the mounting height of the metallic brackets (**MB**) to the lowest level (please refer to the “**Adjusting the height of your mattress support**” procedure).

Carefully store the footboard in a proper place, away from direct sunlight and moisture, taking care not to scratch the wood finish.

STEP B (two adults are required to complete this step - please refer to “ASSEMBLY INSTRUCTIONS FOR YOUR 10501 STATIONARY CRIB”)

Attach the toddler rail (**TR**) to the rest of the crib using all four Allen bolts and washers (**4+7**) resulted after footboard removing.

Completely tighten all four Allen bolts used to attach the toddler rail.

Attach the previously removed decorative legs (**DL**) using all six Allen bolts and washers (**5+7**) removed before.

Completely tighten all six Allen bolts used to attach the decorative legs.

STEP C (two adults are required to complete this step - please refer to “ASSEMBLY INSTRUCTIONS FOR YOUR 10501 STATIONARY CRIB”)

Turn the crib in its normal position, taking care not to scratch its finish.

Attach the mattress support (**MS**) to the metallic brackets (**MB**) using all four bolts and nuts (**4+6+7**) removed before. Position the mattress support evenly between crib sides. It is very important to position the mattress support with the “**This side up**” sticker facing upwards!

Completely tighten all eight Allen bolts used to attach the metallic brackets and the mattress support.

After completing **STEP C** your toddler bed should look like the one depicted on the first page of this instruction booklet.

REMINDER

You have to completely tighten **18** Allen bolts, distributed as following:

- **4** bolts (**4+7**) in the toddler rail;
- **6** bolts (**5+7**) in the decorative legs;
- **4** bolts (**4+6+7**) in the mattress support;
- **4** bolts (**3+7**) in the metallic brackets.

WARNING: TO KEEP YOUR BABY SECURE AND SAFE, AND TO AVOID POTENTIAL INJURY OR DEATH, IT'S **VERY IMPORTANT** TO **COMPLETELY TIGHTEN** ALL BOLTS AND WASHERS LISTED IN **STEPS A, B & C!**

GENERAL FURNITURE CARE TIPS

- Wood, like any natural material is likely to present variations of grain and texture which will result in slight color variations or richness in the finish. These differences make each Romina Furniture item as beautiful and unique as you and your baby are.
- To preserve the initial appearance and functionality of your furniture, it is recommended that all furniture items be used in accordance with their intended design.
- Special water-based finishes are used to make this furniture safe for your baby. These finishes may be more delicate than those used on adult furniture thus requiring careful maintenance.
- Constant rubbing or mechanical interaction with sharp/hard objects such as belt buckles, jeans' zippers or buttons will likely damage the finish on your furniture. When placing or retrieving items onto the furniture, always set them down and pick them up, do not "slide" them. Items placed onto the horizontal surfaces must be moved/rotated to prevent discoloration in the finish.
- Exposure to extreme variations of environmental conditions such as humidity and temperature can affect the finish quality due to wood sudden expansion or shrinkage. It is recommended that the room temperature be maintained in between 65 and 75 degrees Fahrenheit and a relative humidity of 35 – 40 %. Do not place items which are too hot or too cold directly onto the finished surfaces!
- Use caution when using a humidifier or vaporizer. Excessive moisture is harmful to the furniture causing the finish to peel and the wood to warp.
- Wipe up spills promptly. If water or other liquids stay in contact with the furniture for a long period of time, they can cause the finish to turn white or discolor. Alcohol or solvent containing substances or materials will permanently damage the finish.
- In general, furniture should not be placed in front or too close to air-conditioning outlets, fireplaces, heaters or humidifiers. Direct sunlight and ultraviolet rays will cause colors to fade, affect the luster and smoothness of the finish and in most cases may cause hairline cracks in the finish. White finishes will yellow naturally over time; exposure to direct sunlight will accelerate this natural process. Please note that all wood essences will darken over time along with the natural aging process which is not considered to be a quality defect.
- To clean the furniture, use a damp cloth immediately followed by wiping with a dry cloth. Do not allow water to stay in contact with the finish as it will damage the finish.
- If you need to put your furniture into storage for any period of time, avoid placing it in damp basements or hot attics. Air flow around and under the furniture should be allowed. Do not place furniture too close to walls, do not stack anything on it and do not cover it entirely.
- When using a vinyl changing pad or similar plastic accessories, make sure to use a fabric felt underneath. Certain plastics have ingredients that can react with and damage the finish. It is recommended to rotate the changing pad's position frequently to avoid finish discoloration.
